

KALTURA

KALTURA PERSONAL CAPTURE

Everyone is a Creator

Video creation is an integral part of today's Digital Workplace. Kaltura Personal Capture is the latest addition to the Kaltura Capture family of products. Included as part of your Kaltura instance, it combines an intuitive interface with a user-centric experience and interactive viewing to enable easy personal video creation anywhere and by anyone. With Kaltura Personal Capture, professional-looking videos and other rich media creation are made easy, without needing specialized equipment and training.

BENEFITS

One Click to Record

- Intuitive user interface: one click to record, with no extra setup or learning curve
- Capture multi-stream recordings synchronized with a PowerPoint presentation and screen capture
- Content creation can be done offline, on-the-go for later upload
- Support on both Windows and Mac

Smarter Videos

- Viewers can navigate within the interactive video player to desired content, search through slide text, switch between video streams, and view picture in picture
- User-centric design for easy creation of professional-looking video presentations
- Automatic slide detection, chaptering and recommended tags
- Annotations, including drawing and arrows, and highlighted mouse clicks
- Leverages the rest of Kaltura's wide range of tools for enrichment and deployment, including captions, quizzes, calls-to-action, editing, and more

Create More, Share More

- Part of Kaltura's Capture Suite. Use one platform for lecture capture, personal capture, VOD, and live broadcast
- Built into your Learning and Content Management Systems and Kaltura MediaSpace instance with seamless recording-to-viewing workflow
- Easily search, discover, and share internally via Kaltura MediaSpace or Kaltura's plugins for Learning and Content Management or embed externally in any website

USE CASES

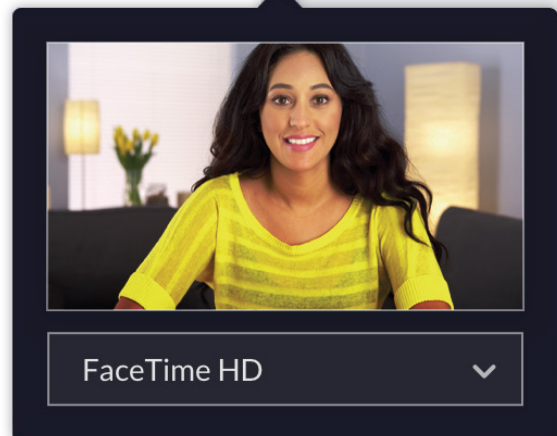

Kaltura Personal Capture is the simplest way to include video in your day-to-day workflows.

Kaltura Personal Capture for Education enables:

- Video assignments
- Lab demonstrations
- Flipped classrooms
- Student presentations
- Video feedback

Kaltura Personal Capture for Enterprise enables:

- Knowledge sharing
- Employee communication and collaboration through your internal video portal
- Creation of professional content for learning and development, fast
- Customer and partner enablement

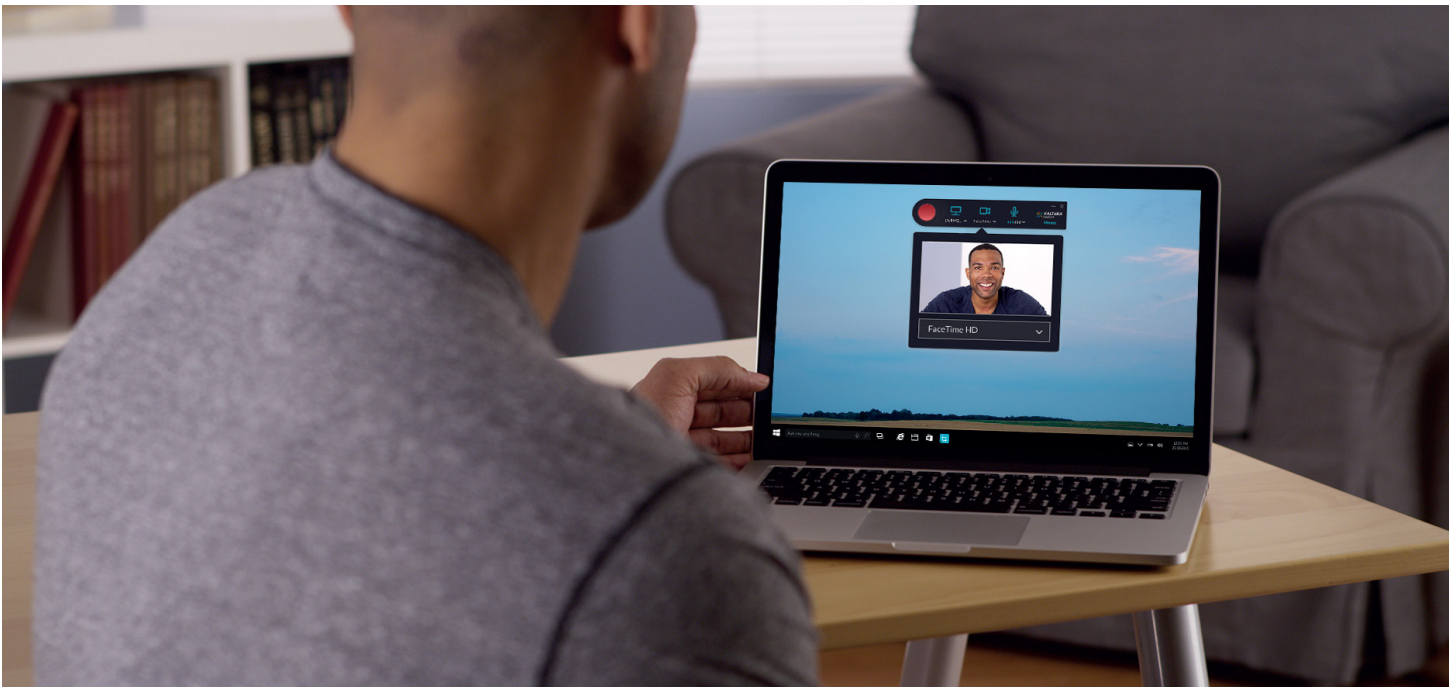

KEY FEATURES

Content creators capture two stream recordings; two camera inputs at once, two screens, or a camera and a screen. It also includes automatic slide detection. Kaltura Personal Capture automatically uploads new videos into the Kaltura Mediaspace video portal or Kaltura integrations with Learning and Content Management Systems. Users can find their uploaded videos in the 'My Media' section. Empower employees, students, faculty, and other users to create professional videos in just minutes, then centrally manage all content in one place.

- Screen and webcam capture in one easy click
- Automatic slide detection identifies slides in presentation mode and creates searchable chapters on top of the video
- Integration with automatic caption generation tools, such as Kaltura REACH
- Seamless uploading to Learning and Content Management Systems and to Kaltura MediaSpace
- Automatic content and metadata ingestion and transcoding for viewing on any device
- Integration with Kaltura Management Console for player configuration, playlists, discovery, and more
- Side-by-side playback of slides and audio/video
- In-video search
- Recording supported on Windows and Mac

About Kaltura

With the mission to power any video experience, Kaltura has emerged as the fastest growing video platform. Kaltura is deployed globally in thousands of enterprises, media companies, service providers, and educational institutions and engages hundreds of millions of viewers at home, at work, and at school.
